SUMMARY

I am an aspiring Front End Developer with a strong foundation in HTML, CSS, and JavaScript. I am eager to leverage my coding skills and design sense to create responsive and user-friendly web applications. I am highly motivated to contribute to dynamic teams, learn new technologies, and grow professionally, looking forward to launching my career in front-end development and bringing innovative ideas to life

EXPERIENCE

Operations Intern   05/2023 - 08/2023

Sportskeeda   Bangalore

A prominent sports news and analysis website that focuses on delivering accurate and up-to-date information to sports enthusiasts

- Executed SQL queries for data extraction, manipulation, and analysis to support content strategy
- Crafted SEO-optimized titles for webpages, enhancing search engine visibility
- Conducted trend analysis to identify and leverage emerging sports content trends
- Performed data cleaning and mining to ensure data accuracy and relevance
- Created data visualizations to present insights and trends effectively
- Coordinated with team members to ensure seamless operations and project execution

EDUCATION

Bachelor of Technology   08/2021 - 05/2025

Madhav Institute of Technology and Science   Gwalior, Madhya Pradesh

PROJECTS

BMW Motorsport Website

A website showcasing BMW Motorsport, focusing on a responsive and interactive design

- Created the front page of a BMW Motorsport-themed website using WordPress, showcasing a sleek design and user-friendly interface; integrated smooth animations for enhanced user experience. **https://anshuman2341.github.io/BMW-MotorSport/**

Simon Says Game

An interactive web-based game that challenges players to remember and replicate a sequence of colors

- Developed a Simon Says game featuring an interactive color sequence memory challenge, focusing on sequence recognition and user input validation.
